

# EDUCATION TO THE RESCUE

As an emergency response professional, you rely on your skills, training, and experience to make fast judgments and take appropriate actions to save lives.

Kaplan Continuing Education (KCE) offers convenient, cost-efficient online courses that provide firefighters and EMS personnel with current continuing education. Our custom learning management system allows for quick access to materials for first responder, EMT, paramedic, and firefighter education. Our online training features actual case studies and provides fast-paced, high-energy videos, accompanied by interactive online training.

#### CORPORATE PARTNER BENEFITS

## EMS TRAINING

### Assessment and Treatment of Trauma (ATT)

This new course provides an alternative, blended learning experience for renewing ATT certification and maintaining continuing education credits. Developed by the American Academy of Orthopedic Surgeons, the course covers the critical knowledge and skills necessary to rapidly evaluate, stabilize, and transport a trauma patient. In addition, the course highlights current controversies in trauma treatment and management, including those triggered by changing technology and treatment modalities.

### Medic Monthly

Medic Monthly provides cutting-edge online EMS education for first responders, EMTs, and paramedics. Each module features case-based learning, fast-paced, high-energy streaming video, and online interactive learning materials. Medic Monthly courses are CECBEMS approved for 1.5 EMS continuing education credits per training module.

### Dr. Bryan Bledsoe Corner

Courses taught by Dr. Bryan Bledsoe, a board-certified emergency physician and nationally recognized EMS textbook author, provide online EMS education for first responders, EMTs, and paramedics. Dr. Bledsoe covers the latest techniques and standards in emergency medical treatment.

### AED (Automated External Defibrillators) Online

AED Online provides an alternative blended learning experience for renewing AED certification and was developed in partnership with Jones and Bartlett Publishers, the AAOS, and the ACEP. KCE's online AED course teaches laypersons and health care professionals how to operate AEDs, as well as the value of early defibrillation coupled with early CPR to achieve the best outcome from cardiac arrest—survival.

### eACLS

Students are provided with case-based training materials for advanced ACLS recertification. These accredited ACLS courses include over 500 photos, illustrations, and animations that are accompanied by 200 live-action video clips. Students who successfully complete our online ACLS recertification training will earn a certificate that is valid for 2 years.\*

## Paramedic Interactive Courses

Developed by Jones and Bartlett Publishers in partnership with the AAOS, KCE Fire & EMS Division's unique program helps students master the cognitive and didactic portions of the DOT EMT-Paramedic courses online. Consisting of 51 online modules, this program provides a well-rounded review of all major topics covered in the Paramedic National Standard Curriculum.

### PEPP (Pediatric Education for Prehospital Professionals)

KCE, in partnership with Jones & Bartlett Publishers, offers PEPP online in customized formats for both advanced life support (ALS) and basic life support (BLS) providers. This program is designed to give prehospital professionals the education and skills needed to effectively treat pediatric patients.

### Professional Rescuer CPR Recertification

Learn how to perform rescue breathing, one-rescuer and two-rescuer CPR, how to use airway adjuncts, and how to operate an automated external defibrillator (AED) in KCE's online refresher training for CPR recertification. The recertification of CPR for the professional rescuer is accomplished with the completion of the online classes and the skills section with an instructor.

## FIREFIGHTER/OSHA TRAINING

### Fundamentals of Fire Fighter Skills Interactive (Firefighter 1 and 2)

This program covers the entire spectrum of the Firefighter 1 and 2 professional qualifications as outlined in the 2008 edition of NFPA 1001, Standard for Fire Fighter Professional Qualifications. It also covers the Job Performance Requirements from the 2008 edition of NFPA 472, Standard for Competence of Responders to Hazardous Materials/Weapons of Mass Destruction Incidents, at the awareness and operations levels.

### OSHA 10

This easy-to-use online course is designed to help users earn a Department of Labor OSHA 10-Hour completion card. Courses include Bloodborne Pathogens, Fire Prevention, and Hazard Communication (HAZCOM).

**From start to finish...KCE Fire & EMS Division programs are here to help you reach higher levels of responder readiness.**
